

Joint Session of the European Association of Urology (EAU) and the Confederación Americana de Urología (CAU)

Urology beyond Europe

Friday 20 March
08:45 - 12:15

Location: Yellow Area, Room Forum

Chairs: P. Albers, Düsseldorf (DE)
A.R. Rodriguez, Rochester (US)

Learning objectives of this session

The aim of this session is to facilitate an educational channel between urology in Europe and Latin-America. A deep insight in selected topics of current clinical practice in urology will be presented by a group of recognised experts from different countries' members of the EAU and CAU. Attendees will be able to learn updates on the diagnosis and management of the major oncological diseases in urology from world-wide known experts in the field. This session will serve as an outstanding opportunity to exchange concepts and to improve the education of urology.

08:45 - 08:50

Welcome and introduction
