# Urology Course

20, 21 and 22 October 2021 - Urology of 2030

Director: Dr. Joan Palou

Online and presential format

[www.uofundaciopuigvert.com](http://www.uofundaciopuigvert.com)

With the special  
collaboration of:

Dear friends,

We would like to introduce the 56th Urology Course of Fundació Puigvert, which will take place from 20 to 22 October 2021 at the Hotel Intercontinental Barcelona. The success of previous courses, with more than 600 registered attendees, is undoubtedly our best letter of introduction.

The Covid-19 pandemic has led to changes in the way in which courses and congresses are conducted. By reason of necessity, the virtual channels have become the most widely used format for learning, work meetings, and exchange of opinions.

The effects of the pandemic are still in full force but thanks to the rapid advance of the research into the vaccines, widespread immunization appears reasonably near and we hope to be able to hold a face-to-face/hybrid meeting.

Therefore, we are confident that the situation of the health crisis will continue to improve, and we want to reissue our International Urology Course. We intend to keep to our usual line of work, reflecting current events and disseminating the latest medical and technological innovations, with a representation of all the Units that make up our Urology Department: Uro-Oncology and Renal Transplant Unit, Reconstructive and General Urology Unit, Functional and Female Urology Unit, Urolithiasis Unit and Paediatric Urology Unit. As always, leading national and international experts will be taking part in our courses. The morning sessions will be dedicated to live surgeries, and in the afternoons we will present and discuss current scientific issues.

Also, peering at the Urology in 2030, we have the invaluable collaboration of the ITRUST Group, which is looking right into the future on multiple aspects, some of which are already part of the present. Our involvement and developmental dynamic spirit drive us to re-think and evolve the future of our specialty.

Please save the date, and book in advance.

Best regards,

Dr. J. Palou  
Chairman Urology Department  
Fundació Puigvert

## COVID-19 prevention: Safe course

Our priority is the safety of all attendees and participants of the course, therefore the epidemiological measures in force during the event will be followed.

**Director:** Daniel Hernando

08:00 Arrival and registration

08:25 - 08:30 Welcome: **Dr. J Palou**

#### Live Surgeries at Fundació Puigvert's Operating Theatres / 08:30 - 14:00 h. Surgical Programme

Live transmission from four operating theatres with simultaneous projection of three interventions on three different screens (with three channels for individual connection of each screen and simultaneous translation). When the first three interventions are complete, immediate connection will be provided with the following ones. Any of the surgeries may be modified owing to logistical problems.

As the surgical session is continuous, there will be a long interval (from 12:00 noon to 03:00 PM), during which a snack/lunch will be served. A coffee service will also be available throughout the day in the commercial exhibition area.

## AFTERNOON SESSION 14:00 - 18:50 h

- 14:00 - 14:15 Welcome and introduction to the Course  
R. Massaguer (General Director, FP), J. Palou (Chairman of the Urology Department, FP),  
H. Van Poppel (Adjunct Secretary General, EAU), A. Rodríguez (General Secretary, CAU),  
M. Esteban (Chairman, AEU), M.J. Ribal (Chairman, SCU)

### PEDIATRIC UROLOGY UNIT 14:15 - 15:05 h

Moderators: A. Bujons, Y. Quiroz

- 14:15 - 14:40 The role of robotic surgery in the reconstruction of the urinary tract with patients of paediatric age  
S. Silay, AF. Spinoit
- 14:40 - 14:55 Face to face  
Comparative evaluation of reconstructive surgery techniques for the correction of buried penis in epispadias surgery  
MD. Leclair, J. Pippi-Salle
- 14:55 - 15:05 Transition from childhood to adulthood in congenital diseases  
A. Bujons

### URO-ONCOLOGY UNIT - Part 1 15:05-18:05 h

#### KIDNEY TUMOR 15:05 -16:00 h

Moderators: A. Breda, JP. Maroto, A. Mottrie

- 15:05 - 15:30 Round table discussion: cT1 and pT3a dilemma  
The urologist's perspective H. Van Poppel  
The pathologist's perspective F. Algaba  
The radiologist's perspective MJ. Martínez
- 15:30 - 15:45 Cytoreductive nephrectomy: how and when?  
A. Minervini
- 15:45-16:00 New lines in immunotherapy in metastatic renal cancer  
A. Necchi

### Thinking out of the box

- 16:00 - 16:10 Integrative medicine  
F. Millán

### PROSTATE CANCER

Moderators: A. Breda, J. Palou, M. Rodrigo

- 16:10 - 16:35 Moderator: F. Sanguedolce  
Round Table on prostate cancer diagnosis  
¿MRI, prostate biopsy or what?  
C. Moore, C. Kastner
- 16:35 - 16:45 Screening for prostate cancer: where are we?  
H. Van Poppel

- 16:45 - 16:55 Radical prostatectomy: a constantly developing technique  
**JG. Pereira**
- 16:55 - 17:05 Prostate radiotherapy: what's new?  
**G. Sancho**
- 17:05 - 17:15 Treatment of castration-resistant prostate cancer. M0  
**J. Moreno**
- 17:15 - 17:25 Treatment of castration-resistant prostate cancer M1 with low and high metastatic burden  
**CP. Evans**
- 17:25 - 18:05 Clinical cases on prostate cancer  
 Moderator: **JM. Gaya**  
**CP. Evans, JP. Maroto, MJ. Ribal, C. Moore**

### **FUNCTIONAL AND FEMALE UROLOGY UNIT 18:05 - 18:55 h**

Moderators: **C. Errando, D. Castro**

- 18:05 - 18:15 Chronic pelvic pain: an unresolved multidisciplinary issue.  
**C. Errando**
- 18:15 - 18:35 Female Urethroplasty: when to perform a Buccal Mucosal Graft  
**T. Greenwell**
- 18:35 - 18:55 Preoperative evaluation and staging in pelvic organ prolapse  
**L. López Fando**

### **PRE-RECORDED SURGERY 18:55 - 20:00h**

| <b>Screen A</b>  | <b>Screen B</b>   | <b>Screen C</b>   |

**AFTERNOON SESSION** 13:30 - 18:45 h

**URO-ONCOLOGY UNIT - Part 2** 13:30-15:10 h  
**UROTHELIUM TUMOR**

Moderators: **J. Palou, JP. Maroto, J. Rubio, M. Rouprêt**  
 13:30 - 13:40 Cystoscopy: yes or no? New biomarkers  
**J. Palou**

- 13:40 - 13:50 En bloc resection: what is the contribution of our clinical trial, and where are we heading?  
**A. Gallioli**
- 13:50 - 14:00 Cystectomy vs BCG in high-risk NMI tumor: BRAVO trial  
**J. Rubio**
- 14:00 - 14:10 Alternatives to BCG failure  
**O. Rodríguez Faba**
- 14:10 - 14:20 Cystectomy in women: Neobladder? How?  
**R. Gaston**
- 14:20 - 14:30 New treatments in metastatic bladder cancer: Are they really useful?  
**A. Necchi**
- 14:30 - 14:40 Adjuvant or neoadjuvant in UTUC?  
**M. Rouprêt**
- 14:40 - 14:50 Diagnosis and conservative strategies in UTUC: time to change indications  
**A. Breda**
- 14:50 - 15:10 Clinical cases on urothelial tumor  
Moderator: **J. Palou**  
Participants: **M.J. Rouprêt, L. Martínez Piñeiro**

### ITRUST: a look into our future 15:10 - 18:10 h

- 15:10 - 15:20 Introduction  
**R. Miano, D. Veneziano**
- 15:20 - 15:35 Technology in Healthcare  
**S. Ahmed**
- 15:35 - 15:50 The evolution of gender medicine  
**A. Santucciono**
- 15:50 - 16:05 The human factor  
**G. Zanovello**
- 16:05 - 16:20 Data analysis to pump up performance - Barcelona FC  
**R. Peláez**
- [ 16:20 - 17:10 **Exhibition: When simulation becomes a professional competition** ]**

#### Live Surgeries at Fundació Puigvert's Operating Theatres / 08:30 -14:00 h. Surgical Programme

Live transmission from four operating theatres with simultaneous projection of three interventions on three different screens (with three channels for individual connection of each screen and simultaneous translation). When the first three interventions are complete, immediate connection will be provided with the following ones. Any of the surgeries may be modified owing to logistical problems.

As the surgical session is continuous, there will be a long interval (from 12:00 noon to 03:00 PM), during which a snack/lunch will be served. A coffee service will also be available throughout the day in the commercial exhibition area.
